INDUSTRY SOLUTION

Nonprofit Organizations

We work with nonprofits to build practical, affordable technology environments, from office infrastructure to business tools, without overengineering or overselling.

Oversized systems you didn't need

24/7
Monitoring & support

The Challenge for Nonprofit Organizations

Technology often gets pieced together over time from donated equipment, whatever was on sale, and reactive fixes when something breaks. Lean teams don't have time to manage it, and tight budgets don't leave room for vendors that oversell more than the organization actually needs.

What We Deliver

Business-Grade Network & WiFi
Reliable connectivity across the office, sized to your team, not oversold.

Microsoft 365 & Google Workspace
User provisioning, permissions, and policies, managed and kept organized.

Security Camera Systems
Indoor and outdoor coverage to protect equipment, offices, and shared spaces.

Access Control
Keyless entry with user-based permissions and full activity logs.

Structured Cabling
Clean, labeled, standards-based copper and fiber, documented from day one.

24/7 Monitoring
We watch the system continuously, so your team isn't the ones troubleshooting it.

Why It Works
We design systems sized to what your organization actually needs, not what pads a vendor's contract. Every dollar you're not spending on oversized technology is a dollar that goes back toward your mission.

How It Works

1. **We assess the organization**
   A review of current infrastructure, tools, and what your team actually needs day to day.

2. **We design a right-sized system**
   Network, WiFi, and workplace tools, scoped to your budget and team size, nothing extra.

3. **We install with minimal disruption**
   Work is scheduled around your team, so day-to-day operations keep running.

4. **We manage everything ongoing**
   Monitoring, support, and updates are on us. Your team stays focused on the mission.

Built to Own, Not Rent

Our infrastructure runs on a perpetual license model. You own the system outright and pay us for management, not for the hardware's right to keep functioning. No annual software licensing fees and no per-device subscriptions layered on top.

A Simple Monthly Model

- Predictable monthly pricing that's easy to budget and plan for
- Systems scoped to what you need, not what pads a contract
- No large upfront cost; purchase equipment outright or lease it at a low monthly rate
- Scales with you as the organization grows or takes on new programs

Who This Is For

Nonprofit Organizations

Community Service Organizations

Advocacy Groups

Foundations

Faith-Based Charities

Social Service Agencies
