INDUSTRY SOLUTION

Schools & Educational Facilities

From classroom WiFi to campus-wide access control and digital signage, we help schools build technology environments that support staff, students, and administrators without requiring a dedicated IT department.

Monitoring & support

The Challenge for Schools & Educational Facilities

Campuses are often spread across multiple buildings, classrooms, and shared spaces, each with its own connectivity, security, and communication needs. Most schools don't have a dedicated IT department to manage all of it, and the systems that are in place are often outdated, disconnected, or difficult to maintain.

What We Deliver

Campus-Wide WiFi
Reliable coverage across classrooms, offices, gyms, and common areas.

Campus-Wide Access Control
Keyless entry across buildings, with permissions and full activity logs.

Digital Signage
Announcements, wayfinding, and alerts, managed centrally across campus.

Security Camera Systems
Indoor and outdoor coverage with remote viewing, alerts, and secure recording.

Structured Cabling
Clean, labeled, standards-based copper and fiber, documented from day one.

24/7 Monitoring
We watch the system continuously, so issues get caught before staff or students notice.

Why It Works

Instead of piecing together vendors for WiFi, access control, and signage, we build one connected system for the whole campus. Your staff gets a single partner to call, without needing to manage IT in house.

How It Works

1. **We assess the campus**
   A walkthrough of buildings, classrooms, and existing infrastructure across the campus.

2. **We design a campus-wide system**
   Network, WiFi, access control, cameras, and signage, unified into one platform.

3. **We install with minimal disruption**
   Work is scheduled around the school calendar, so classes aren't interrupted.

4. **We manage everything ongoing**
   Monitoring, support, and updates are on us. Your staff isn't the IT department.

Built to Own, Not Rent

Our infrastructure runs on a perpetual license model. You own the system outright and pay us for management, not for the hardware's right to keep functioning. No annual software licensing fees and no per-device subscriptions layered on top.

A Simple Monthly Model

- Predictable monthly pricing built around your campus size and systems
- No need to hire or train dedicated IT staff
- No large upfront cost; purchase equipment outright or lease it at a low monthly rate
- Scales with you as the school adds buildings, classrooms, or programs

Who This Is For

Private Schools

Daycares & Early Learning Centers

K-12 Campuses

Charter Schools

Multi-Building Campuses

Educational Nonprofits
