USE CASE

Replacing Subscription-Based Systems

Tired of paying annual licensing fees just to keep your cameras or network running? Our infrastructure operates on a perpetual license model. You own the system and pay us for management, not the hardware's right to function.

1
Time you buy the hardware, own it for good

Annual licensing renewals

24/7
Monitoring & support

The Challenge with Subscription-Based Systems

Many camera and network platforms lock you into paying every year just to keep hardware you already own turned on. Miss a renewal and features get disabled, or the equipment stops working altogether. Costs creep up year after year for the same system you started with.

What We Deliver

Perpetual License Infrastructure
Network and security hardware you own outright, with no recurring software fees.

Camera & Access Control
Modern surveillance and access systems, built on hardware that stays yours.

Network Design & WiFi
A reliable network built to replace subscription-locked platforms for good.

Structured Cabling
Clean, labeled, standards-based copper and fiber, documented from day one.

Migration & Cutover Planning
We move you off the old platform with a plan, not a scramble.

24/7 Monitoring
We watch the system continuously, so issues get caught before they cost you.

Why It Works

Instead of paying a subscription forever just to keep hardware turned on, you own the system outright and pay us only for the ongoing management. Your costs stop climbing every renewal cycle.

How It Works

1. **We review what you're paying for**
   A look at your current platform, licensing costs, and what's actually being used.

2. **We design a perpetual-license replacement**
   Network, cameras, and access control, built on hardware you'll own outright.

3. **We migrate with minimal disruption**
   Cutover is planned and staged, so your systems stay up throughout.

4. **We manage everything ongoing**
   Monitoring, support, and updates are on us. You don't chase vendors or troubleshoot.

Built to Own, Not Rent

Our infrastructure runs on a perpetual license model. You own the system outright and pay us for management, not for the hardware's right to keep functioning. No annual software licensing fees and no per-device subscriptions layered on top.

A Simple Monthly Model

- Predictable monthly pricing that replaces unpredictable renewal invoices
- 24/7 monitoring and support included in every plan
- No large upfront cost; purchase equipment outright or finance it at a low monthly rate
- Scales with you as you add cameras, sites, or coverage

This Fits If You're

Paying Annual Camera Licensing Fees

Locked Into a Subscription Network Platform

Frustrated by Rising Renewal Costs

Worried About Vendor Lock-In

Tired of Per-Device Fees

Wanting to Own Your Infrastructure
